Complete Pump Jack System

ALUM-A-POLE™

SCAFFOLDING SYSTEM

800.421.2586

Your Scaffolding, Brake and Vinyl Coil Answer!

Proudly Made in the USA!

For People Going Up in the World...Safely!

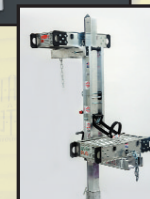

Some of the "Original" Alum-A-Pole™ System Features:

- Rugged and easily transportable.
- Stackable - Alum-A-Poles can be quickly spliced and used to a 50' maximum shoulder working height (which meets OSHA requirements). Alum-A-Poles can be used for different height needs and uncoupled quickly for convenient storage. Available in 24', 18', 12' and 6' lengths. Easily join any poles for greater height with an Alum-A-Joint.
- The Alum-A-Joint has 4 separate safety stops.
- Easy to install end-rail systems
- All components meet and exceed all OSHA requirements for 2-man rated system.
- Not a single accident in over 30 years with proper use and setup.
- Follow all federal, state and local regulations.
