INTRODUCING THE PARTITION THAT IS ALL ABOUT DRIVER COMFORT!

There is a trend happening with cargo van owners in the market. They want a product that offers more value than the traditional steel partition provides. Something that quiets the cab area, provides more leg room and provides better climate control. Drivers that spend 8-12 hours a day working out of their mobile office want a more comfortable experience.

Adrian Steel's new line of composite partitions offers unparalleled comfort for the driver.

Organize – Partitions are great location to hang your cargo. Easily add safety items like fire extinguishers and first aid kits, or hooks to hang your extension cords or hoses. Additional accessory kits are available to customize your Adrian Steel composite partition even more.

Sound Deadening
Reduce the harshness of the cargo noise entering the cab area. This reduces driver distractions and makes for a quieter environment to communicate when driving.

Leg Room – Full seat travel and a comfortable recline angle makes the composite partition our most comfortable line of partitions we sell.

Climate Control
Quickly cool down or heat up the cab area of the cargo van, reduce idle time doing so and save fuel!

THE NEXT GENERATION OF CARGO MANAGEMENT SOLUTIONS

Tools, equipment and cargo come in all shapes and sizes and until now, there hasn't been a shelving unit that is **truly adjustable**. The ADseries is the first of it's kind where, with only a screwdriver, you can simply remove the front shelf bolts and move the shelf where you need it. Shelves can be adjusted in one inch increments and provide the most flexible shelving solution available.

TRULY ADJUSTABLE SHELVES

All you need is a phillips head screwdriver! The unique shelf design features rear shelf studs that lock the shelves in place and speed nut clips that allow you to attach bolt on easily! Simply remove two bolts from the speed nut clips at the front lip of the shelf, tilt the shelf upwards to disengage the rear studs, move the shelf to your desired location, insert the rear shelf studs, reattach the bolts and you're done!

ADAPTABLE INTERIOR

Everyone likes to set their work van up their own way. The ADseries allows you position the shelving where you need it. Exclusive to the ADseries, the unique rail system enables you to reposition the shelving along the rail, increasing the available space for trade specific equipment. All of this is done without removing bolts, plugging holes and redrilling the van! The 6" knock out of the stamped steel end panels (available for the Low Roof Transit) provides a 48" floor space to accommodate 4'x 8' sheet goods (up to 22 sheets of 1/4" drywall or a combination of thicknesses).

ADD ACCESSORIES

Businesses change over time and your van interior should be able to change with your needs. Plug and Play shelves have prepunched holes that allow adding storage solutions easily! ADseries dividers simply snap in place, drawer units and door kits simply bolt into place. Many Adrian Steel accessories can be added to the ADseries shelving with the rail adapter kits and end panel brackets.
